

## Garden lighting VisuLED Home and CircLED

Nice plants or sculptures in the garden can be illuminated selectively, thus emphasising the features. Thanks to the illumination, paths are lighted discreetly.

<b>Customer/installation engineer:</b>	Etavis Rorschach
<b>Stipulation:</b>	Garden lighting, low-voltage
<b>Solution:</b>	VisuLED HOME distributed on approx. 4 power circuits on ground spike, dimmable with 1-10V regulator
<b>Article:</b>	Various, on request
<b>Quantity:</b>	26x VisuLED HOME (Item no. 860107) 26x CircLED (Item no. 860160)
<b>Equipment:</b>	4 separate channels, individually dimmable
<b>Areas of application:</b>	Garden, footpaths, facades, pagodas, park facilities, access roads etc.

### Initial situation

The old 230V garden lighting no longer did proper justice to the beauty of the plants. With the new VisuLED HOME and CircLED, GIFAS offers all-round beautiful garden lighting. This can be installed in a variety of different ways and can be dimmed using a 1-10V regulator. The optimum solution for garden and footpath lighting.

### Customer benefits

- Power lines and connecting cables are routed through tubes buried in the ground
- No visible power lines
- Quick and easy garden maintenance with power appliances
- Personal safety through the low voltage
- Dimmable
