

Ambience- and pathway lighting with StreetLED

The StreetLED provides ideal lighting for the railway platform in Château d'Oex without causing additional light pollution in the surrounding area.

Customer/installation engineer:	MOB Service électrique
Requirement:	Illumination of a station
Solution:	StreetLED CUBE 48 comfort white 78W
Item no.:	860009
Quantity:	6
Areas of application:	Stations, streets etc.

Starting situation

Illumination is essential in guaranteeing the safety of commuters waiting on train platforms. The StreetLED provides the solution when optimal illumination is required. The targeted light beam bathes the entire platform in bright light while ensuring that the neighbouring areas are not affected.

Customer benefits

- Strong light output with low energy costs
- Dimmable
- Compact and modern design
- No maintenance required
